NTIC JAMB RESULTS 2022

Raising the bar, setting the standard

NTIC STUDENTS ATTEND TOP 100 UNIVERSITIES IN THE WORLD

Congratulations
NTIC got recognized by the National Association of Proprietors of Private Schools for its outstanding contribution towards the growth of education in Nigeria. As a brand, we are grateful for this special recognition, and we will always continue to contribute to the growth of education in Nigeria and Africa as a whole.

Congratulations to Oghenerekevwe Esemidotde of Nigerian Tulip International Colleges Ogun for representing Nigeria in Morocco and Norway at the 2022 International Maths Olympiad, Thank you for making us proud.
Every aspect of our life influences our state of well-being. Routine medical check-ups are a great way to stay on top of your health and wellness. It is easy to think that we are healthy and there is no need for a health check-up, but with regular medical checkups, you can detect any health threats early (especially those with little or no physical symptoms) and find quick, lasting solutions to them. NTIC Asokoro visited Nizamiye Turkish Hospital with its pupils for a routine Eye and Dental Checkup on 17th February 2022. The pupils had their dentition and visual acuity checked. It was a fun-filled experience for the pupils.

Some of our NTIC Kano boys teachers got certified as Cambridge teachers recently. This is a delight to us, seeing our teachers rising to their potential. They all performed brilliantly and were handed their certificate. Amongst the teachers who got certified are Mr. Muhammad Yunusa, Mr. Muhammad Sale Maidawa, Mr. Aminu Muhammad, and many more. In our interview with one of the teachers who participated in the exam, he stated that the exam was quite challenging, but they all ensured they gave it their best shot. This outstanding performance reassured us of the essence of professional development in the education sector.

This year’s JAMB results are out and every student that sat for the exam from NTIC Kano boys is happy. With no student scoring below the cut-off mark and four students scoring above 300. This has made the students, parents, and the management quite glad, as this is one of the best JAMB results of NTIC Kano boys. Last year the highest score in JAMB for NTIC Kano boys was 299 and this year the highest is 340, that is a very big improvement, and this could only be achieved by hard work and resilience.

The annual children’s day celebration is known to be celebrated nationwide on the 27th of May, but due to the public holiday, NTIC Abuja Primary took the initiative to celebrate with the students on the 26th of March, 2022. This event was heralded by lots of interesting and fun-filled activities. The children were celebrated uniquely. Recreational activities like games, bouncing castles, and mickey mouse were available for the children. The Pupils had lots of fun.
The principal of NTIC Yobe Boys gave students who scored above 300 in JAMB CBT exam and those who scored 86% and above in TRT some encouragement prizes. We congratulate all our outstanding students.

As part of the theme “Social Life and Technology,” the nursery pupils of NTIC Asokoro explored the topic “Shopping with money.” The pupils were made to visit different supermarkets in the neighborhood, where they practically learned what it means to buy items. They were taught the exchange of currency with expected balance.

On Tuesday 24th May 2022 the pupils in the Early Years section of the NTIC Asokoro branch visited the NTIC’s furniture factory which is located at the NTIC headquarters Wuse 2, Abuja. The workers showed the children different furniture tools such as hammer, nails, saw, iron cutter, etc. The children were so excited to see how a door frame is made. Afterward, the children were taken to the welding section where they were shown multiple welding tools. They also performed a short role-play as they held and handled the tools almost perfectly.

At the plumbing unit, the pupils were shown some of the plumbing tools and their functions. It was a fun-filled and enjoyable visit as the children learned loads of new words and boosted their vocabularies as they made good efforts pronouncing the names of the tools correctly as well as their uses.

Learning is truly FUN at NTIC Asokoro!
HOD Seminar

S3 Students of Yobe Boys were motivated and inspired by the National Head of the English Language Department from NTIC ABUJA. Students asked different questions about their careers and upcoming JAMB Examination.

NTIC Primary Spelling Bee 2022

A spelling Bee contest does not only provide children with a worthy educational experience but also instills a sense of healthy competition in them. Thus, a Spelling Bee competition for children from Grade 1-6 has many benefits, such as brushing up on grammar, strengthening vocabulary, acquiring competitive spirit, having a better knowledge of words, improved cognitive skills, increased confidence, boosted memory and memorizing skills etc. All these intellectual and academic benefits led to the NTIC Ahoja Primary Spelling Bee competition, which lasted from Monday 30th May 2022 to Friday 3rd June 2022. Pupils from Primary one to six participated in the spelling bee. The results of the competition as follows: the first position from primary 1 to 6 are Yasi na Kydyrbek, Zahra Majdara, Okudo Chukwubuike hael, Fatima Zahra Aminu and Aisha Dardisu, while the second position goes to Minha Hussain, Taksh Teckchandani, Nilufer Karataeva, Muhammed Sani and Chidubem Ugwuoke and the position in each class goes to Jesse Ayenafe, Hadia Faraz, Chris Chibudem Omahuike, Rabia Jibrin and Monalisa Idoko respectively.

The ability to memorize difficult English words comes by learning their spellings, and participants in spelling bee also gain various skills by participating in these contests.

NTIC Teachers Award

Teachers are key shareholders in the educational sector. Our teachers at NTIC have been the backbone of the immense success that we have accomplished so far. To celebrate and appreciate their contribution to the different academic accomplishments, NTIC Yobe gave gifts and awards to the principal. It was such a pleasing time for the teachers to get rewarded.

English Week

Language is an abstract system of symbols and meanings. Language provides a vehicle for inquiry. In an inquiry-based classroom, teachers and students enjoy using language and appreciating it functionally and aesthetically. With the understanding of language use, NTIC Asokoro set aside a week for English Language activities; this took place between Monday 23rd to 27th of May, 2022. The focus was on handwriting, debate, reading, and spelling bee. It was an educative week for our pupils to enhance their knowledge and widen their horizons.
Considering the new development in the educational sector, NTIC Kano, in collaboration with the Guidance and Counseling Department, has taken the initiative to administer a career test on Motivational Appraisal of Personal Potential to the JSS3 students. The test aims to help prospective Senior Secondary School One students to determine their areas of interest, aptitude, and preference. The comprehensiveness of the test report has given many parents confidence in the recommendation given by the college and career counselor regarding the class each student must join.

Student development is not a one-way system. As much as we focus on developing every student's cognitive and affective domain at NTIC, we try as much as possible to expose their psychomotor. 11th of February, NTIC Asokoro had an eventful maiden edition of their Sports Day. It was a day full of excitement for the students as they were all engaged in various activities such as swimming, sack race, driving and other activities.

At NTIC, we believe that sports provide a platform to teach children grit and add value to their lives while achieving academic success. NTIC Yobe boys participated in the 22nd Senior Secondary School Basketball championship and won the second-place Northern zone held in Kano State. NTIC Yobe Basketball Team qualified and represented Yobe State in the Northern Zone final round, winning against Jigawa State. The team will be representing the Northern Zone in the final round come August 2022 at the National level in Lagos.

As part of our process to ensure that NTIC achieves its stated aims and objectives, we designed a survey to obtain feedback on administration, academic performance, security, etc., to determine the successful attainment of the NTIC strategic ambition. This will help us better understand students' needs as they identify areas that need improvement. Thus, each student's opinion on the issues enumerated in this Survey will be helpful to the management decision making.

Stars at 22nd MILO Basketball Championship
Cultural Day celebration has become an integral part of the extracurricular activities at NTIC, and NTIC Kano students have taken it to a greater height. Displaying the aesthetics of different cultural attires and performances, our students appeared in school in their traditional attires and each tribe organised a model royal court.

The Cultural Day celebration brought students together, appreciating their diverse identities and reminding them that unity is the only bond that will give positive aspirations for the future.

On the 25th of February, 2022, NTIC Asokoro invited grandparents to the school for storytelling activities. This is to familiarize the pupils with various folktales and fables. Moral lessons were generated from the stories shared by the grandparents. It was a bonding time for pupils as they also got integrated into the home-school learning system.

At NTIC, we understand the impact of having a healthy and balanced life. In this respect, NTIC Yobe organized a social night for the JSS3 students to cheer up after the successful completion of their BECE examination. The day went with lots of excitement and fun for the students. They participate in various activities. The students were excited and we are sure they will not forget the experience in a glimpse.

As part of giving back to the society, Nigerian Tulip International Colleges, Asokoro has awarded participants of the maiden edition of the Asokoro Inter-Primary School debate held recently on the 26th of March 2022 at the school premises.

With the theme “Social Media’s Influence on Child Learning,” the competition saw eight schools which are; Springville International School, Unique Standard Bearer Montessori School Kubwa, Famak British school, New Beacon International School Apo-Duste, Funtaj International School Asokoro, Sunrise International School Asokoro, Applewood British School Lugbe and L.EA Model Primary school Asokoro.

After an all-out battle and alighting of keen points, Famak British school emerged the ultimate winner and Springville International School and Sunrise International School Asokoro emerged as the second and third runners-up, respectively.
Readers are Leaders

"Today's reader, tomorrow's leader." Reading plays a significant role in a child's life, and its importance can't be overemphasized. At NTIC, we are keenly passionate about stimulating the interest of extensive reading in our students. In this regard, NTIC Yobe's Guidance & Counselling department has made it their core duty to arrange a reading programme for the students at the end of each term.

The participants cut across students from JSS1 to SSS3. Flowing the Pavlov behaviourist theory, positive reinforcement enables students always to do their best. An encouragement gift were given to the top 3 position holders from each class.

"Today's reader, tomorrow's leader."

Friendship Day

Friends are the ultimate influence on every growing child. 14th of February 2022 was set aside by NTIC Asokoro for a meet and greet platform for the pupils and for them to relate with their peers. They were allowed to express their love and play with their friends. It was an eventful day for the pupils as they went further to extend love and friendship to the children of Cherryfield Children Home, Asokoro. They relate with the children and also donates gifts/food items. It was a heartfelt experience for our pupils.

Seedling Plantation For Early Years

Planting is the culture that must be practiced to increase the availability of food in our environment. Planting seeds with children is a natural and fun-filled activity. Our Early years' pupils had their seedling plantation on Tuesday 18th January 2022. The pupils were fascinated to see how seeds were tucked into the soil and they were taught the importance of seed planting.
Career experience project is a unique NTIC program designed to give students the opportunity to work alongside industry professional to gain firsthand experience in their chosen career path. This will enable them decide if the chosen course is in line with their ambitions and help the students fine tune their goals and objectives to match their career path.

GOALS/KEY BENEFITS OF JOB PLACEMENT
- Link academic study and theory to real industrial practice.
- Real world exposure to the latest technology, work behaviour.
- Learn the 'language' of industry.
- Build a network of future career contacts.
- Adds invaluable work experience to your CV which is attractive to undergraduates seeking admission for higher learning.
- Provides the opportunity to work with a more diverse group of people
- Offering you an insight into the 'World of Work' and allows you to get a feel for what you do and don't like doing
GRADUATION CEREMONY FOR 2021/2022 ACADEMIC SESSION

...The Right Environment For Learning...The Right Environment For Learning...The Right Environment For Learning
GRADUATION CEREMONY FOR 2021/2022 ACADEMIC SESSION
As it has been the tradition of NTIC Schools, JSS1 students enjoyed the BQ party arranged by their class teacher.

**NEW PREFECT’S ELECTION**

Nigerian Tulip International College Kano Boys’ section has conducted its general election for the 2022/2023 academic session on the 3rd and 4th of June 2022. Forty-five students showed interest in different perfects position in the school, while only fifteen students were qualified with outstanding votes.

The INTEC Chairman Abubakar Mairamri’s electoral committee emphasized the importance of their vote casting at the polling points, warning them to avoid collecting or taking anything in the form of selling their votes indirectly to any contesting. Lastly, the electoral committee advised the students on electoral malpractice and warned them to shun all forms of electoral misconduct.

**EXCURSION**

NTIC Yobe organized an excursion for SS3A science students to Philomath University Abuja, they were being introduced to the VC and the registrar. The students were taken to the admission office, faculty of law, faculty of social science and management science, and the hostel. The students were introduced to all the faculties & departments. Students were happy to hear about a special 50% discount on fees if they are getting admission in that university.

**CORPORATE SOCIAL RESPONSIBILITY**

NTIC Yobe in its capacity to equip students for the best academic performance and future development has decided to sponsor successful students in the Yobe State scholarship entrance exams. A seminar was scheduled for the 17 Local Government Education Secretaries and their representatives as regards the agenda and process of the scholarship. It is our hope that the right set of students will benefit from this scholarship.
